

Locker Rooms

Coaching staffs are responsible for monitoring their teams' locker rooms before and after practices and games. Since the locker room can be an environment where hazing and ridicule occur, it is essential that locker rooms remained locked when not in use and supervised when in use. Student-athletes should have all belongings placed in or on top of a locker and off of the floor. Locks will be arranged for each locker room through the athletic office.

Also, part of being a responsible host for visitors requires us to provide clean and orderly locker rooms for our opponents. Coaches are responsible for inspecting and/or making available these facilities when requested.
