Team-Specific Budgets

Coaches will meet with the athletic director in the season following the sport to examine the previous year’s expenses and create the next season’s budget. This work is done in advance and ensures accurate planning by our coaches. In the event a coach has a need for an item not included in that year’s budget, a request must be made to the athletic director(s), including all pricing, to determine if funds are available before any order is placed.
